### **Testimonial Video (As the Caregiver...) Post Caption:**

As a caregiver, it's okay to ask for support. You matter just as much as the loved one you're caring for who is battling addiction. Family support groups are here to help you manage those overwhelming emotions, and having a solid support system can make all the difference.

Whether it's therapy, support groups, hotlines, or online resources, building a reliable network strengthens your resolve to keep going. You deserve a community that is there for you, just like you're there for your loved one.

Get the support you BOTH need with Connect Protect Recover. ❤️
